

Biodex Econo Echocardiography Ultrasound Table

The Econo Echocardiography table is based on the same platform as the Echo Pro. It has the same ergonomic features, keeping the safety of the sonographer in mind. To make it a more cost-effective alternative, it is offered without Trendelenburg positioning or the central floor-locking system.

The barrier between sonographer and patient is eliminated with the Econo Echocardiography Table, featuring a new ergonomic design that helps prevent musculoskeletal injury.

The new design includes a cardiac drop-down cushion that provides the largest scanning access of any table, with the ability to release and return from either side of the table. Open access is provided to the patient's left thorax area for an unobstructed apical approach.

The Econo Echocardiography Table has many optional items to further improve sonographer comfort and safety. Choose what best suit your department's specific needs. Redesigned side rails for closer patient access, a vascular scanning arm board, adjustable from 0 to 130-degrees and a headrest extension for easier thyroid and carotid access are all available.

Suitable Procedures:

Abdomen	Aorta	Thyroid
Breast	Carotid	Upper Extremity Arterial*
Renal Transplant	SMA	Stress Echo
Renal	Pelvis	Testicular
Musculoskeletal	Renal Artery	Upper Extremity Venous*
Abdominal Doppler	Echocardiography	Transesophageal Echo
